THE WONDERS

Of Science—Lung Troubles and Consumption Can be Cured.

Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, F. A. Boccia, demonstrating his knowledge of a reliable and absolute remedy for Consumption (Pulmonary tuberculosis) and all bronchial, throat, and chest diseases, stubborn coughs, catarrhal affections, general debility and weakness, loss of flesh, and all conditions of wasting away, send three free bottles (all different) of his New Discoveries to any selected reader of the Mt. Sterling Advocate writing for them.

His "New Scientific Treatment" has cured thousands permanently by himself, and he considers it a scientific profession, suffering humanity to donate a trial of his infallible cure.

His Science daily develops new wonders, and this great chemist, patiently and permanently for years, has produced results as beneficial to humanity as can be claimed by any modern science. His experiments are carried on in his laboratory, and are confirmed by the latest American and European laboratory tests, and thousands from those cured parts of the world.

His latest experiments confirm that bronchitis and lung troubles lead to consumption, which, unintercepted, leads to a certain death.

He writes to T. A. Boccia, M. D., 38 Pine Street, New York, giving his name and address, and asking for three bottles of his medicine, which he promises to send him at once.

Mr. A. Boccia, M. D., has been told the Doctor that he saw in the Advocate. If it is true, he will be glad to send him three bottles of his medicine, which he promises to send him at once.

THE YELLOW FLAG

Of Spain Again Goes Down in Defeat—Sampson Destroys Cervera's Squadron.

The Spanish Driven Back Upon Santiago and Shafter Demands

THE SURRENDER OF THE CITY.

The First Philippine Expedition Has Reached Manila.

THE LADRONE ISLANDS TAKEN.

On Friday General Shafter, in his continued advance on Santiago, found the Spaniards strongly entrenched at El Caney and prepared to dispute his further approach to the city. A desperate battle ensued, and all day long under the blazing tropical sun the two armies fought. The Spaniards bravely stood to their position, but toward evening were forced back with heavy loss by the stubborn and realistic attack of the Americans. Night closed in with the Spaniards flying and the Americans in possession of the intrenchments they had occupied in the morning. The American loss, as well as the Spanish, was heavy in both killed and wounded.

Saturday morning the battle was resumed, and though the Spaniards were driven back with great slaughter, the night fell with the Americans unable to reach Santiago. In the two days' battles the American loss in killed and wounded will most probably reach 1200, while the Spanish loss is said to be much heavier. Sunday morning General Shafter telegraphed the War Department at Washington:

Plays del Este, July 3.—To Secretary of War, Washington: Camp near Sevilla, Cuba, July 3.—We have the town well invested on the north and east, but with very thin line. Upon approaching it, we find it of such character and the defenses so strong it will be impossible to carry it by storm with my present force. Our losses up to date will aggregate a thousand. The list has not yet been made.

But little sickness outside of exhaustion from intense heat and exertion of the battle of the day before yesterday and the almost constant fire which is kept up on the trenches.

The wagon road to the rear is kept up with some difficulty on account of the rains, but I will be able to use it for the present.

Gen. Wheeler is seriously ill, and will probably have to go to the rear to-day. Gen. Young is also very ill, confined to his bed.

Gen. Hawkins was slightly wounded in the foot during sortie the enemy made last night, which was handsomely repulsed.

The behavior of the troops was magnificent.

Shafter, Maj. General.

Yesterday brought glorious news from all directions for the Americans. News was received by the War Department, and later fully confirmed, that Sunday morning Admiral Sampson had destroyed all but one of Admiral Cervera's fleet of warships in Santiago harbor. The details are not given, but it is supposed that Cervera made a break for the outside of the harbor and that Sampson swept down on him with the above result. The dispatch added that General Shafter had later made a demand for the city's surrender. The demand had not been acceded to so far as heard from.

The Spanish reports of the land battles of Friday and Saturday admit that their loss was simply fearful. General Linarez, the Spanish com-

Royal makes the food pure, wholesome and delicious.

Reinforcements make the news that the first expedition of 2,500 troops conveyed by the Charleston had reached Admiral Dewey on June 30.

On the way the expedition stopped at and took possession of the Ladrone Islands, making prisoners of the Spanish Governor of the islands away a prisoner. A body of American troops was left to hold possession of the islands.

Reinforcements will be hurried to General Shafter, though it is probable he will not need them to take the city of Santiago.

Centuries ago people used to fear what they called the pestilence. "Black Death" was the most terrible thing in the world to them. They feared it as people fear the cholera and yellow fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is merely that simple, common thing called constipation. It makes people listless, causes dizziness, headaches, loss of appetite, loss of sleep, foul breath and distress after eating.

The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unnecessary druggist sell you something on which he makes more money, it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Advice" postpaid illustrated.

Mr. John I. Roy, of Lancaster, has been employed as salesman in Oldham Bros. & Co.'s dry goods store west Main street. From the appearance of the young man we would judge him as full of pluck and enterprize as are his employers.

J. B. Tipton.

A heavy rain fell here yesterday. The dashing downpour washed out and practically ruined many gardens and we hear did much damage to corn and tobacco in many sections of the county. In less than 30 minutes 1.7 inches of rain fell according to Government gauge.

DEATHS.

TURLEY.

Mrs. Sarah A. Turley, aged 74, died at her home near Steptone, in this county, on Wednesday morning. The deceased was the widow of the late Willis Turley, and mother of our townsman, Mr. Joseph C. Turley. By reason of falls she had suffered twice the fracture of a hip, and these accidents, together with the infirmities incident to old age, had for a length of time kept her bedfast.

Mrs. Turley was a noble christian woman, a devoted wife and mother and a loving and hospitable neighbor; being all this, it could not be otherwise than that her influence for good should be very great among those with whom she came in contact.

On last Tuesday, June 28th, Miss Estelle R. Stout, of this county while in search of health at the home of her sister at Gate City, Va., passed from earth to glory from that dread disease, consumption. Miss Stout at the age of eighteen years, having served the Lord's purposes, entered into that rest prepared for His followers. Her remains were taken to the Baptist church here, of which she was a member, where her funeral was preached by her pastor, Rev. W. J. Bolin and her remains were placed to rest in Mangelsh cemetery. Death is no respecter of persons, the young bright and buoyant yields to the cold touch as do those worn with time. A few months past Miss Estelle apparently had a long lease on life but to-day the sad story is told; she rests in our beautiful city of the dead. "Be ye also ready," would be the admonition of the sweet Sainted girl. In the home of her sister she received every needed attention and every thing that could be done was done to restore her to health but every effort was futile. It is a happy thought to know that her last days were with kindred and friends and to-day her spirit is with Him who gave it.

On Thursday night the residence of Mrs. Elizabeth Stephens and two frame store-rooms on Locust street were destroyed by fire. The residence and one of the store-rooms belonged to Mrs. Stephens. These, together with the contents of the store-rooms, were almost a total loss. The second store-room belonged to the U. B. F., and was occupied by some colored men, who lost a very large part of their stock. Mrs. Stephens had an insurance of \$3,250 on her property, which will fully cover the loss. There was no insurance on the other store-room or contents. From all indications there is little doubt that the fire was of an incendiary origin. At this fire, as well as the one at the Dr. Taubee residence, the fire company did most excellent and effective work.

His First Bank Account.

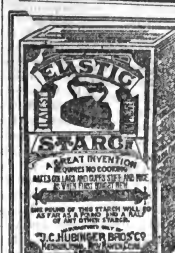

A poor but honest man of this county stepped into J. Davis Sewell's grocery a few days ago and purchased \$1.00 worth of goods, and when they were wrapped up called for a check on the Traders Deposit Bank, when this conversation took place:

Mr. Sewell—"John, you haven't any money in bank, have you?"

John—"Yes, I have. You told me I'd bought my groceries from you. I would want dividends. I haven't any diamonds, but I have a bank account for the first time in my life and consists of what I have saved by buying so much cheaper of you than I ever did before you started into business."

Moral: Start you a bank account with what you save by buying your groceries of Sewell.

Did you say that you were not feeling well and that your stomach was out of order? Well then, try a bottle of Dr. Caldwell's Syrup Pepsin and you are sure of relief. Constipation and indigestion cured. Sick headache cured. Greatest boon to mankind and is being appreciated by thousands. It will get you a trial free bottle. Larger sizes 10c and \$1.00. W. S. Lloyd.

Last evening Miss Marguerite Trimble, in honor of her guests, Misses Sinclair, Hobbs and Calmes, gave a delightful entertainment to about seventy-five young people. The entertainment was a July 4th celebration.

Copper Colored Splotches.

There is only one cure for Contagious Blood Poison—the disease which has completely baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots all over my body. These spots broke out in sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good, I had spent a hundred dollars, which was really a fortune. I then used various patent medicines, but they did not reach the disease. When I had finished my trial bottle of S. S. S., I was greatly improved, and was delighted with the result. The large spots on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite greatly improved. I was able to enjoy my life, and my skin as clear as a piece of glass. If I can be of any service to others, I will gladly tell them of my cure. Don't destroy all possible chance of a cure by taking the doctor's treatment of mercury and potash. These minerals cause the hair to fall out, and will wreck the entire system.

S.S.S. For the Blood

AN EXPLANATION AND A CORRECTION.

The report sent out last week from Chickamauga to several of the Dailies and which was commented on by us as "the Second Regiment a question false." The report was charged Dr. Dade, Surgeon of the Regiment, with the bedside of a sick soldier of Company C, a James Dade from this place. We gave space to Col. Gaither's explanation, thus giving Dr. Dade the benefit of the correction to which he is entitled. However, as according to Col. Gaither, the writer of the charge is to be tried by a general court martial, Dr. Dade will no doubt get all the vindication he needs or wants. Col. Gaither's letter is as follows:

Camp Geo. H. Thomas, June 30, 1898.—Editor MT. STERLING ADVOCATE.—Sir: Your publication of June 28, contains an article reflecting upon Dr. W. H. Dade, the Surgeon of this Regiment, that is wholly false. The writer of the article is now under arrest and will be tried by a general court martial. As you have unwittingly, no doubt, published a very grave slander against an excellent and eminent surgeon, you should give at least equal prominence to correction.

Yours truly,
 E. H. GAITHER,
 Col. 2nd Ky. Infantry.

LATER.—We are just in receipt of a letter from E. L. Hawes, signing himself staff correspondent of the Cincinnati Commercial Tribune, in which he says "he did Major Dade a gross injustice" in the article above mentioned. While the correspondent goes to some length to exonerate Surgeon Dade from any blame in the matter, he makes so many ex parte statements—for instance: "The true seat of the trouble lies in the fact that Major Dade has been called upon to treat 1300 men with less than sufficient medicine for one-third that number,"—that we do not feel inclined to publish his letter, lest we fall into the error of doing some other than Major Dade an injustice.

Was Very Nervous.

"My daughter was afflicted with scrofula and rheumatism and she was very nervous. We read testimonials about Hood's Sarsaparilla and concluded to try it. After she had taken four bottles of this medicine she was cured of all these troubles." J. A. Elliott, Shady, Tennessee.

Miss Amelia Grigebly.

Miss Amelia Grigebly, the daughter of R. F. and Maria A. Grigebly, died at the residence of her parents on the Kiddleville pike, in Montgomery county, Ky., on June 25, 1898. Services were conducted by the writer at the residence, followed by burial in Machpelah cemetery.

Miss Amelia was a bright, energetic woman, loved and admired by a large circle of friends and acquaintances, as was attested by the large concourse who attended her funeral. While not a member of the church, she was a faithful attendant upon divine services and loved all of God's people and the principles of Christianity shown out in her life. She crushed out her from disease which from her no natural life was a peaceful departure from this life. Her only desire to live longer was that she might be of service to her parents, now worn with age, and a brother who had long suffered affliction. The last moments of her life were a peaceful falling asleep, beautifully expressed in—

"Asleep in Jesus, blessed sleep,
 From which none ever wake to weep."

Deafness Cannot Be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Warden Elected.

The prison commissioners last week elected Eph. Lillard, of Jessamine county, warden of the Frankfort penitentiary. This action was a great disappointment to the many friends of Hon. South Trimble, of Franklin, who were sure he would be elected. Warden as he was the author of the bill and it was through his efforts the bill became a law. The general impression has been that Mr. Trimble would be chosen.

Spinal Disease the Result of a Fall—Abscesses Formed.

Kentucky Clergyman Reports What

Hood's Sarsaparilla did.
The character of the people who testify to the merits of Hood's Sarsaparilla is worthy of consideration. Read what a Kentucky clergyman says:
"When our little girl was 2 years old she fell from a loft and sustained her spine. Since then she has been subject to spinal diseases, and lost the use of her limbs. She was very delicate and did not have much appetite, and abscesses formed on the left side of her spine, which discharged continually and she was obliged to lie on her right side all the time. We procured a bottle of Hood's Sarsaparilla and she began taking it. The first effect was to give her an appetite and enable her to sleep. She continued taking it, and now she is a healthy child with the exception of her deformity." Rev. B. S. WARD, Chaplain, Kentucky.

RESOLUTIONS

Adopted by the Tenth Congressional Democratic Convention.

The Democracy of the Tenth Congressional District, assembled at West Liberty on June 23, adopted the following:

1. We approve the call for this convention, and thank the people of West Liberty and Morgan county for their hospitality and kindness to its members.
2. We reaffirm the platform of the Democratic party adopted at Chicago in 1890, and are gratified to see that the great leader there presented to the people as their standard-bearer is as ready to heroically fight for right in war as he was to maintain his principles in time of peace.
3. We regret the conditions that forced a war with Spain on a people who always prefer peace, but we unqualifiedly endorse the determination of the American Congress to stop the outrages committed in Cuba by a treacherous and blood-thirsty race, and trust that no terms will be given until the Spaniard is driven from the Western Hemisphere and all his possessions are made free territory, whose people shall be secure in the same opportunities that we have to enjoy civil and religious liberty, under the shadow and protection of the American eagle.
4. We are proud of the courage and patriotism manifested by our heroic soldiers and sailors in rallying around the Eagle of our common country, and we demand that they shall be sustained with the abundant supplies and equipment that this rich and powerful country is so amply able to furnish.
5. We glory in the splendid achievements of Dewey and Hobson and the other gallant heroes who have already taken part in the war, and commend what they have done to those who profess to believe that the race to which we belong is degenerating.
6. We welcome with Senator Wolcott, of Colorado, that "America is a sentinel of liberty throughout the world," and with Senator Teller, of the same State, "that freedom and liberty cannot be a means of harm to any people who are asked to take their share in it."

"I thank Dr. DeWitt's Little Hazel Salve is the finest preparation on the market for piles." So writes John C. Dunn, of Wheeling, W. Va. Try it and you will think the same. It also cures eczema and all skin diseases.

J. B. TITTON.

About 2 p. m. Wednesday Dr. J. B. Titton's residence on Sycamore street was seen to be on fire. The department answered, and by the good work done succeeded in saving the house, but not before very considerable damage had been done. The loss to the property was assessed at \$1300. This was fully covered by insurance. The origin of the fire is unknown; it caught in the gutter and may have been smoldering for some time.

Messrs. Fred Barnett and Turner Pitman left yesterday for Cincinnati where they will buy a full and select stock of staple and fancy groceries. They will occupy the building north west corner Main and Broadway and expect to be open for business by Saturday. Both young men are well known and popular salesmen and without any sort of a doubt will receive a very liberal share of the trade.
